PRATTSBURGH, NEW YORK

About US

Our journey to find a second home began at the beginning of 2023. After going through a tough few years, we decided to take the plunge as we kept learning how short life really is. Most important was location, A place where we could "unplug" from our daily lives & enjoy the area in close proximity. We are born and raised in the finger lakes region with deep roots going back for generations and reside locally. The property was something we wanted to share with others since we have such a admirable passion for the area. A place for families to gather, make memories and hopefully to make it a tradition to return to each year.

Thank you hearing our "short story" and we hope our place creates your favorite story during your stay!
